REF-001 Soft Cervical Collar

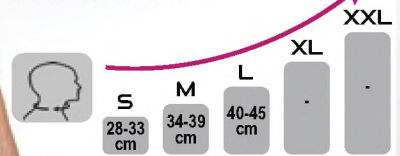

Sponge collar provides superior comfort and support to the neck, relieves pain from disc hernia by limiting movement of the head and neck.

REF-002 Soft Cervical Collar

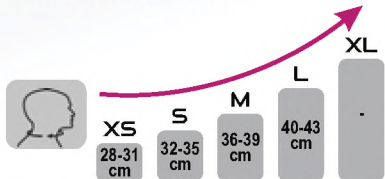

Sponge collar provides superior comfort and support to the neck, relieves pain from disc hernia by limiting movement of the head and neck.

REF-003 Cervical Collar Nelson

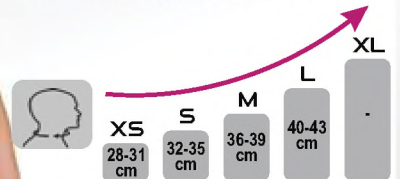

Relieves pain from disc hernia by limiting movement of the head and neck, middle hardness.

REF-004 Cervical Collar Nelson - Cover

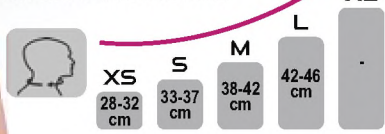

Relieves pain from disc hernia by limiting movement of the head and neck, middle hardness with cover.

REF-005 Cervical Collar Philadelphia - Closed

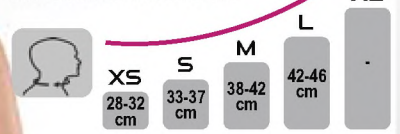

Restricts cervical spine flexion, lateral flexion and extension as well as rotation. Latex-free, non-toxic and hypoallergenic plastizode foam material will not cause skin irritation.

REF-006 Cervical Collar Philadelphia - Opened

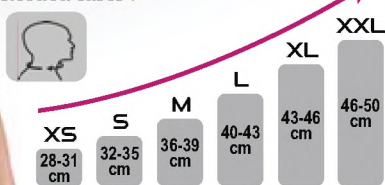

Restricts cervical spine flexion, lateral flexion and extension as well as rotation. Latex-free, non-toxic and hypoallergenic plastizode foam material will not cause skin irritation.

REF-007 Cervical Collar With Chin Support

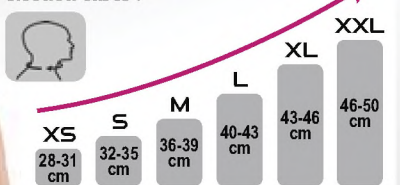

Hard neck and head support that limits its motion to reduce pain in needed cases.

REF-008 Cervical Collar Without Chin Support

Hard neck support that limits its motion to reduce pain in needed cases.

REF-009 Cervical Collar Wire Frame

Designed semi-rigid collar provides excellent immobilization and comfort maximum support to the neck.

REF-010 Cervical Collar First Aid

Uses after accidents to limit neck motion and reduce further damages.

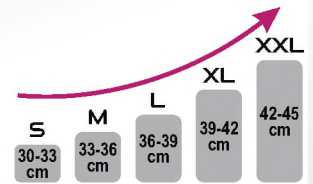

REF-015 Arm Sling Mesh Fabric

Provides support and immobilize the upper arm in injuries, made of breathable fabric .

REF-016 Arm Sling Lux

Provides support and immobilize the upper arm in injuries .

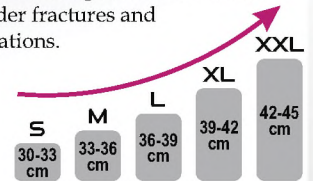

REF-017 Arm Sling Gabardine

Provides support and immobilize the upper arm in injuries .

REF-018 Velpau Bandage

Provides immobilization on shoulder and upper arm adduction. With its functional design uses in the cases of shoulder fractures and dislocations.

REF-019 Arm Sling With Cushion 30°

Provides immobilization at 30-degrees at the abduction. , relieves subacromial pressure and helps the user in immobilization and rehabilitation.

Standard

REF-020 Arm Sling With Cushion 45°-60°

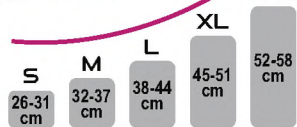

Provides immobilization at 45-60 degrees at the abduction. , relieves subacromial pressure and helps the user in immobilization and rehabilitation.

Standard

REF-021 Clavicula Bandage

Non gradual velcro adjustment enabling the shoulders to be pulled back as desired for a proper posture gives accurate immobilization and prevents dislocation .

REF-022 Neoprene Shoulder Support

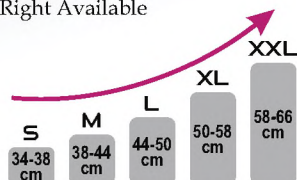

Supports the shoulder and gives warm to joints.

REF-023 Knitted Shoulder Support

Supports the shoulder and gives warm to the joints.

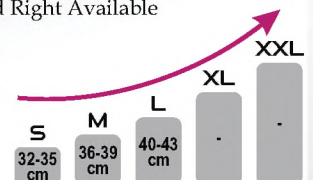

Left and Right Available

REF-024 Humerus Brace

Used for stabilization of upper extremity fractures surgeries

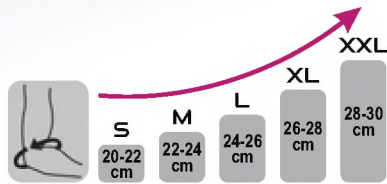

Left and Right Available

REF-030 Spacer Tennis Elbow Support

Provides support to the elbow joints and confort in use because of its breathable fabric .

REF-031 Spacer Epicondylitis Bandage

Provides support to the elbow joints to reduce pain , also its confort in use because its made of breathable fabric .

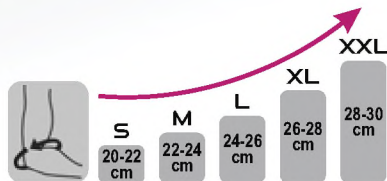

Standard

REF-032 Neoprene Tennis Elbow Support

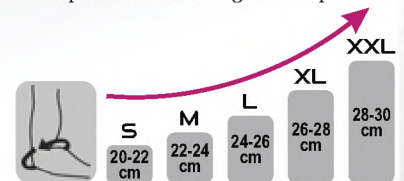

Provides support and warmth to the elbow joints .

REF-033 Neoprene Padded Elbow Support

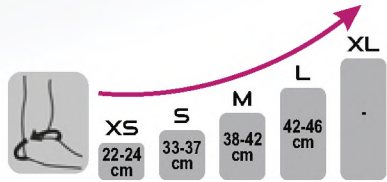

Provides support and warmth to the elbow joints to reduce pain , and protect the area against impacts.

REF-034 Tennis Elbow Support - Universal Size

Provides support and warmth to the elbow joints .

REF-035 Epicondylitis Bandage - Universal Size

Provides support to the elbow joints to reduce pain , also its confort in use because its made of neoprene fabric .

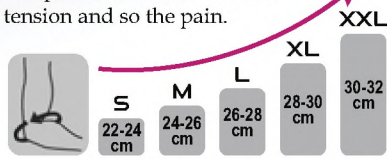

Standard

REF-036 Knitted Elbow Support

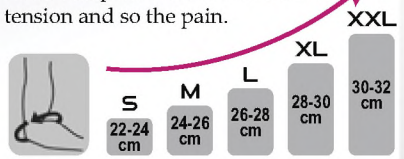

It has droplet featured , provides compression on the muscle groups on both sides of elbow. Local compression reduces tendon tension and so the pain.

REF-037 Knitted Elbow Support With Silicone

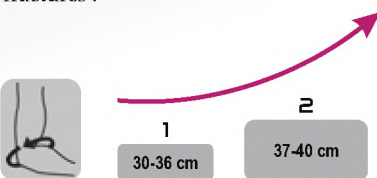

Provides micro-massage effecting silicone pads that provides compression on the muscle groups on both sides of elbow. Local compression reduces tendon tension and so the pain.

REF-038 Elbow Contracture Orthosis

Provides controlled immobilization in cases of elbow joints disloctaion and fractures .

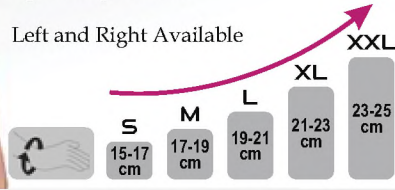

REF-050 Wrist Splint

Gives full support and immobilize the wrist to reduce pain in cases of ligament problems.

Left and Right Available

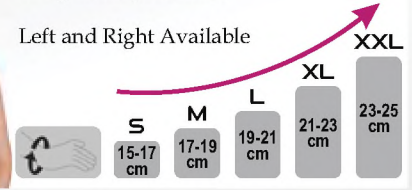

REF-051 Wrist Splint With Thumb Support

Gives full support and immobilize the wrist and thumb to reduce pain in cases of ligament problems.

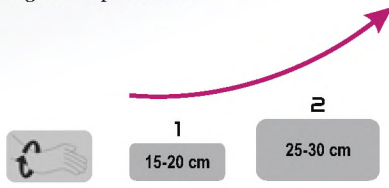

Left and Right Available

REF-052 Adjustable Wrist Splint Meshed Fabric

Gives full support and immobilize the wrist to reduce pain in cases of ligament problems.

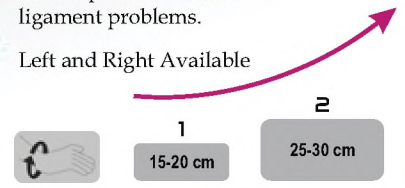

REF-053 Adjustable Wrist Splint With Thumb Support

(Meshed Fabric): Gives full support and immobilize the wrist and thumb to reduce pain in cases of ligament problems.

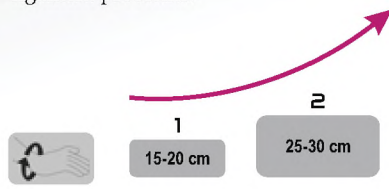

Left and Right Available

REF-054 Wrist Splint Lace Up

Gives extreme support and immobilize the wrist to reduce pain in cases of ligament problems.

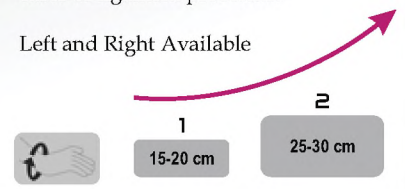

REF-055 Wrist Splint With Thumb Support Lace Up

Gives extreme support and immobilize the wrist and thumb to reduce pain in cases of ligament problems.

Left and Right Available

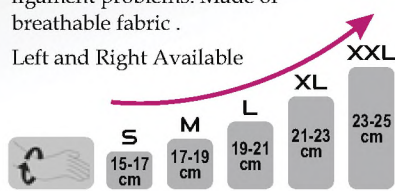

REF-056 Spacer Wrist Splint

Gives full support and immobilize the wrist to reduce pain in cases of ligament problems. Made of breathable fabric.

Left and Right Available

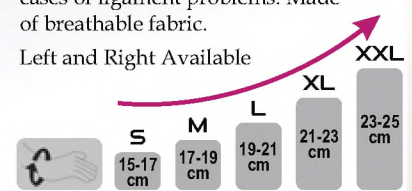

REF-057 Spacer Wrist Splint With Thumb Support

Gives full support and immobilize the wrist and thumb to reduce pain in cases of ligament problems. Made of breathable fabric.

Left and Right Available

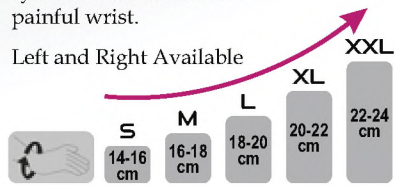

REF-058 Knitted Wrist Support

Gives support and compression to the wrist joint helping in carpal tunnel syndrome treatment and painful wrist.

Left and Right Available

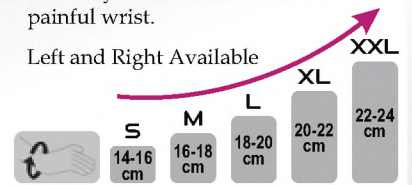

REF-059 Knitted Wrist With Thumb Support

Gives support and compression to the wrist joint and thumb helping in carpal tunnel syndrome treatment and painful wrist.

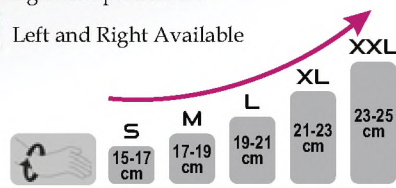

Left and Right Available

REF-060 Neoprene Wrist Splint

Gives warmth and immobilize the wrist joints to reduce pain in cases of ligament problems .

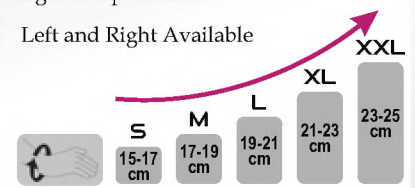

Left and Right Available

REF-061 Neoprene Wrist Splint With Thumb Support

Gives warmth and immobilize the wrist joints to reduce pain in cases of ligament problems .

Left and Right Available

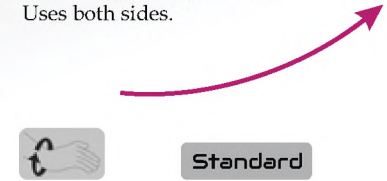

REF-062 Wrist Splint With Double Side - Universal Size

Gives immobilize the wrist joints to reduce pain in cases of ligament problems .Uses both sides.

REF-063 Wrist Splint With Thumb Support - Universal Size

Gives full support and immobilize thumb motion to reduce pain in cases of ligament problems. Uses both sides.

REF-064 Thumb Support - Universal Size

Gives full support and immobilize thumb motion to reduce pain in cases of ligament problems.

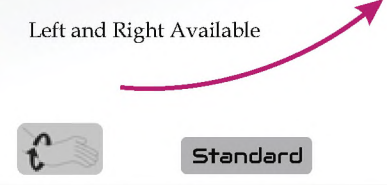

Left and Right Available

REF-065 Bandage Wrist Support

Gives warmth and support to the hand and wrist joints.

Left and Right Available

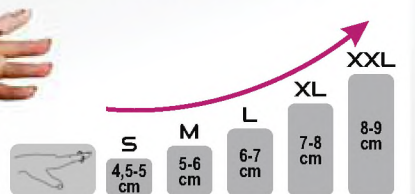

REF-066 Wrist Support

gives warmth and support to the wrist joints.

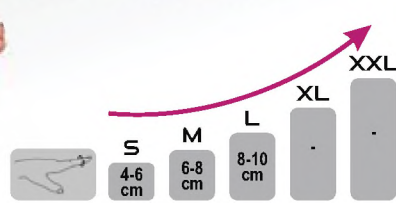

REF-067 Finger Splint Mallet

Immobilize finger joints to help healing the tears of extensor tendon .

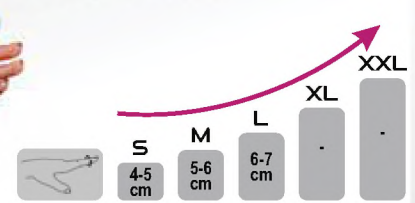

REF-068 Finger Splint Frog

Gently immobilize the finger after injures and finger fractures .

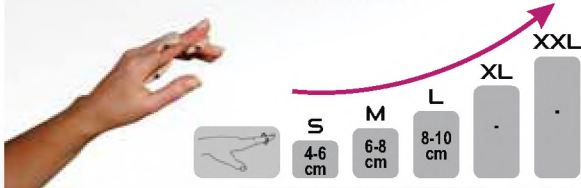

REF-069 Finger Splint Baseball

Gently immobilize the finger after injures and finger fractures .

REF-070 Butonier Finger Splint

Holds the DIPJ in extension or slight hyperextension to heal injuries and tendon problems.

REF-071 Finger Splint Aluminum

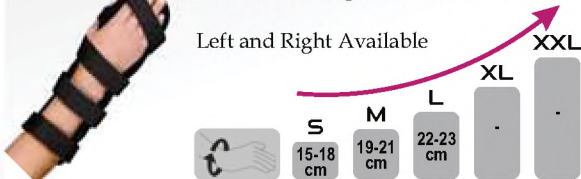

Gently immobilize the finger after injuries and finger fractures.

REF-072 Thermoplastic Relieving Splint

Provides wrist immobilizing at 30 degrees dorsiflexion and IP joints at mild flexion used to prevent contracure.

Left and Right Available

REF-073 Thermoplastic Anti-Spasticity Splint

Provides wrist immobilizing at 30 degrees dorsiflexion and IP joints at mild flexion used to prevent contracure.

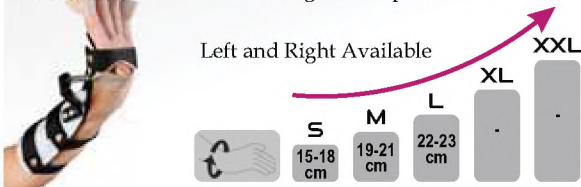

Left and Right Available

REF-074 Thermoplastic Dynamic Splint

Uses to exercise the fingers in cases of stiffness or after Cerebral Palsy and after tendon & ligament operations.

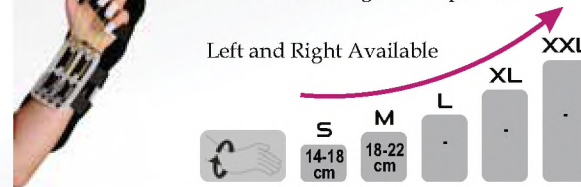

Left and Right Available

REF-075 Thermoplastic Kleinert Splint

Uses to exercise the fingers in cases of stiffness or after Cerebral Palsy and after tendon & ligament operations.

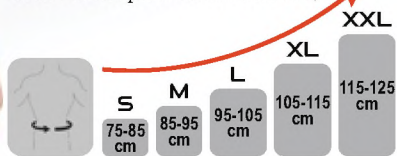

Left and Right Available

REF-100 Lumbostad Corset With Strap 26 cm

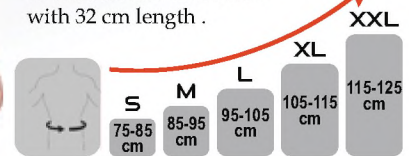

Offers the advantage of an inner surface soft terry cloth pad. Due to the support provided to the lumbar region, corset relieves the pain on the muscles,

REF-101 Lumbo Sacral Corset With Strap 32 cm

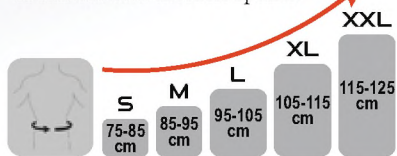

Due to the support provided to the lumbar region, corset relieves the pain on the muscles, implements perception of comfort and assurance with 32 cm length .

REF-102 Dorso Lumbar Corset Thoraco Lumbar

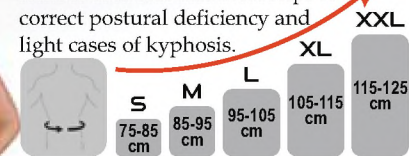

Support the spine to correct it and help treat kyphosis. Stabilizes the hyperextension in vertebral fractures of lumbar and thoracic spine.

REF-103 Posturex Bandage

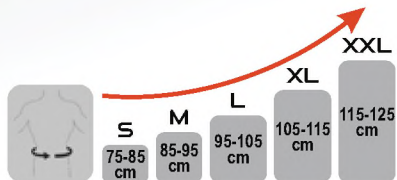

Steel under wires can be fastened and detached on demand. Extra belt provides an additional support to the lumbar area stabilization. Helps to correct postural deficiency and light cases of kyphosis.

REF-104 Abdominal Corset

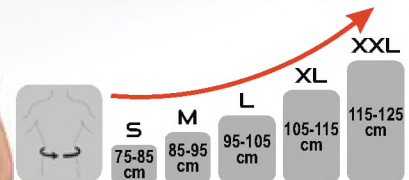

Support abdominal area after surgeries and pregnancy .

REF-105 Sternum Corset

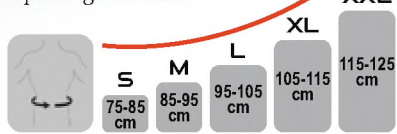

Reduces pain in daily life motion, provides safety and comfort to the patient support sternum healing .

REF-106 Colostomi Corset

Opening, corset prevents any unwanted movements of the stoma bag and potential leakages which may occur during mundane and sporting activities .

REF-107 Spinal Lumbo Sacral Corset

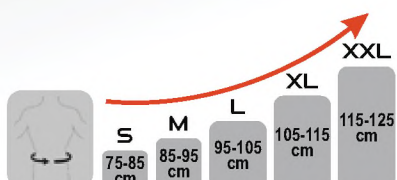

Provide exteme support to the lower back it relifes and correct the lumbar discs thanks to the mechanical adjustment in the back.

REF-108 Knitted Lumbostad Corset

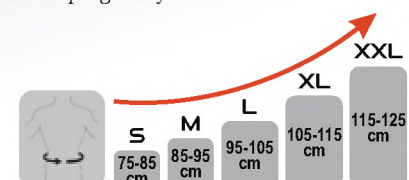

Supports the lower back and help to treat the lumbar sacral pain .

REF-109 Knitted Abdominal Corset

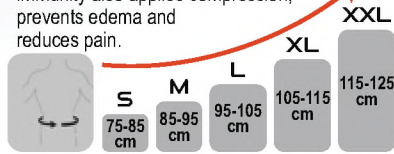

Support and aply compression abdominal area after surgeries and pregnancy .

REF-110 Neoprene Lumbosacral Corset

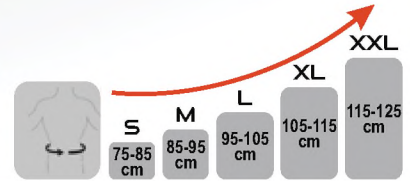

Supported by exterior belt, the corset provides warmth and compression. Sustains body's own release of heat effectively improve blood circulation, promote metabolism, enhance immunity also applies compression, prevents edema and reduces pain.

REF-111 Neoprene Abdominal Corset

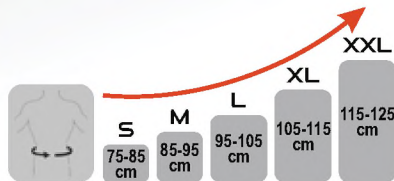

Support and give warmth abdominal area after surgeries and pregnancy.

REF-112 Wool Corset

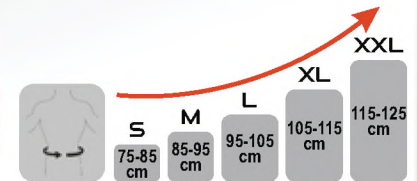

Gives warmth to the lower back and reduce pain.

REF-113 Wool Corset Open Front Side

Gives warmth to the lower back and reduce pain.

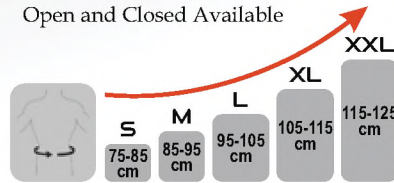

REF-114 Wool Corset Camel

REF-115 Wool Corset Camel Open Front Side

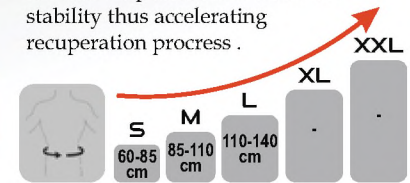

Gives warmth to the lower back and reduce pain.
Open and Closed Available

REF-116 T.L.S.O Corset

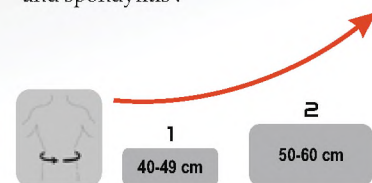

Restricts the motion of the vertebrae to a certain point, Secures a accurate anatomical posture and enhances stability thus accelerating recuperation process.

REF-117 Hyperextension Corset Jewet

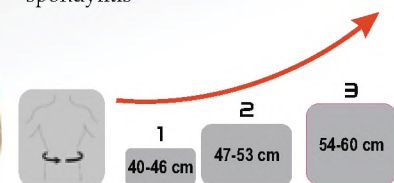

Vertebral compression uses to reduce the pain in fractures, osteoporosis, and spondylitis.

REF-118 Hyperextension Corset Jewet-New

Vertebral compression uses to reduce the pain in fractures, osteoporosis, and spondylitis.

REF-119 Hernia Support-Single

Provides pressure on inguinal hernia and reduce pain.

Left and Right Available

REF-120 Hernia Support-Double

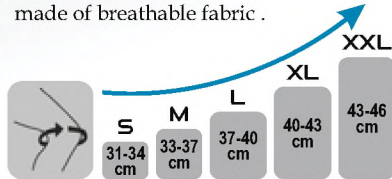

Provides pressure on inguinal hernia on both sides, and reduce pain.

REF-130 Spacer Knee Support Patella Support

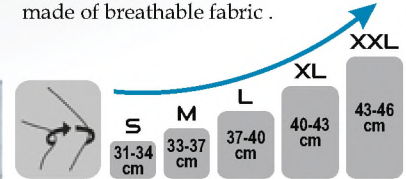

Provides support and warmth to the knee joints and patella ,uses to heal legaments injuries , made of breathable fabric .

REF-131 Spacer Knee Support Patella With Ligament Support

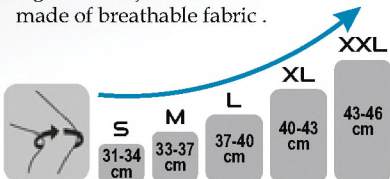

provides support and warmth to the knee joints and patella ,uses to heal legaments injuries , made of breathable fabric .

REF-132 Spacer Knee Support With Hinged Stabilizing

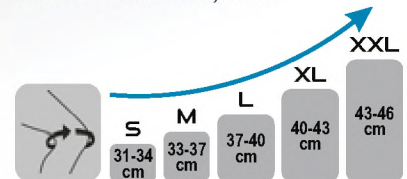

Provides support and warmth to the knee joints and patella ,uses to heal legaments injuries , made of breathable fabric .

REF-133 Neoprene Knee Support Closed

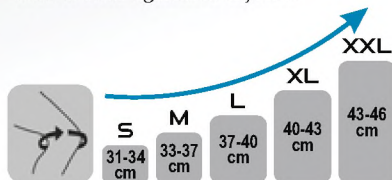

Support knee joint, reduce pain by relieving the load on the joint , uses to heal tissue injuries .

REF-134 Neoprene Knee Patella Support

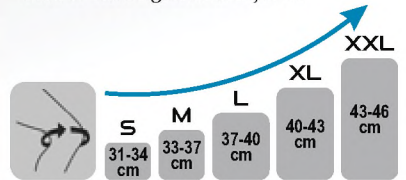

Provides support and warmth to the knee joints , uses to heal ligaments injuries

REF-135 Neoprene Knee Patella And With Ligament Support

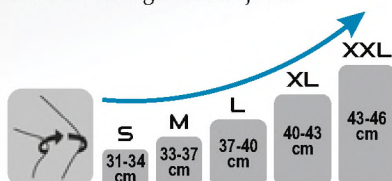

Provides support and warmth to the knee joints , uses to heal ligaments injuries

REF-136 Neoprene Knee Patella And With Ligament Support-Half Open

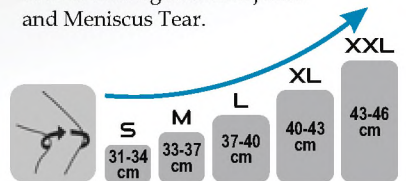

Provides support and warmth to the knee joints , uses to heal ligaments injuries

REF-137 Neoprene Knee Patella Support With Hinged Stabilizing

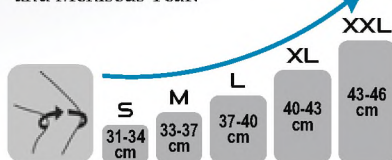

Provides support and warmth to the knee joints , uses to heal ligaments injuries and Meniscus Tear.

REF-138 Neoprene Knee Patella Support With Hinged-Half Open

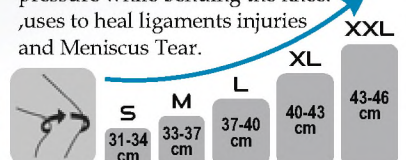

Provides support and warmth to the knee joints , uses to heal legaments injuries and Meniscus Tear.

REF-139 Neoprene Knee Patella Support With Hinged-Full Open

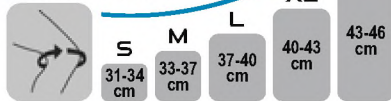

Since it can be completely open from the front side, provides ease of use to the elderly, prevents the disturbance and pressure while bending the knee. ,uses to heal ligaments injuries and Meniscus Tear.

REF-140 Knee Support With Crossed Ligament

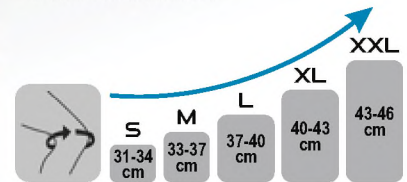

Improves patella tracking in cases of lateral patella subluxation and dislocation. Helps guide the patella back into proper alignment with gentle pressure from the lateral to medial direction.

REF-141 Neoprene Knee Tendon Support

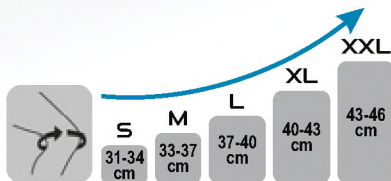

It is recommended to use in Osgood-Schlatter and patellar tendonitis treatment.

REF-142 Neoprene Knee Tendon Bandage

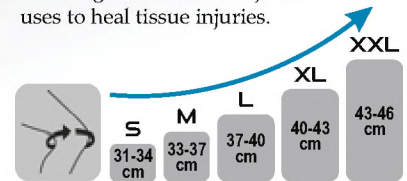

It is recommended to use in Osgood-Schlatter and patellar tendonitis treatment.

REF-143 Knitted Knee Support

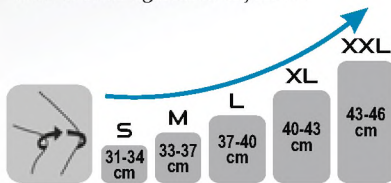

Support and gives compression to the knee joints, reduce pain by relieving the load on the joint, uses to heal tissue injuries.

REF-144 Knitted Knee Support With Silicon-Closed

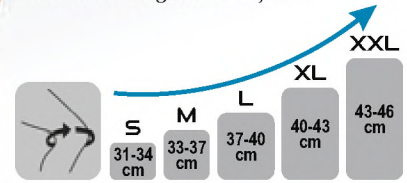

Provides support and warmth to the knee joints, uses to heal ligaments injuries.

REF-145 Knitted Knee Support With Silicon-Open

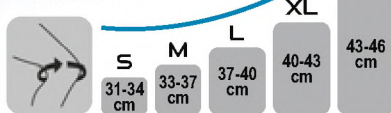

Provides support and compression to the knee joints, uses to heal ligaments injuries.

REF-146 Knitted Knee Patella Support With Ligament

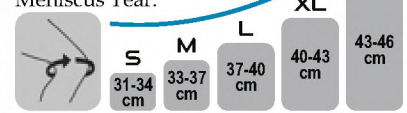

Medial (inside) and lateral (outside) double spiral stays offer overall knee joint stability. Support knee joint, reduce pain by relieving the load on the joint, uses to heal ligaments injuries and Meniscus Tear.

REF-147 Knitted Knee Support With Hinged

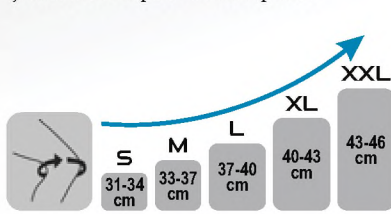

Medial and lateral double spiral stays offer overall knee joint stability. Support knee joint, reduce pain by relieving the load on the joint, uses to heal legaments injuries and Meniscus Tear.

REF-148 Knee Wool Support

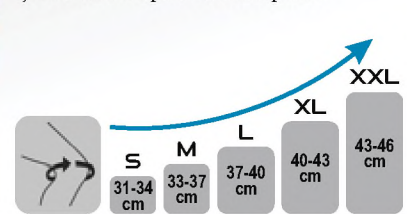

Gives warmth and support to the knee joints and helps to reduce pain.

REF-149 Knee Wool Support Camel

Gives warmth and support to the knee joints and helps to reduce pain.

REF-150 Knee Support Patella-Universal Size

Provides support and warmth to the knee joints and patella ,uses to heal ligaments injuries

Standard

REF-151 Knee Support With Flexible Stays-Universal Size

Provides support and warmth to the knee joints and patella , uses to heal ligaments injuries

Standard

REF-152 Knee Support Patella With Hinged-Universal Size

Provides support and warmth to the knee joints and patella , uses to heal ligaments injuries.

Standard

REF-160 Thigh Support-Universal Size

Supports upper calf. Sustains body's own release of heat effectively improve blood circulation, promote metabolism, enhance immunity also applies compression, prevents edema.

Standard

REF-161 Calf Support-Universal Size

Supports lower calf. Sustains body's own release of heat effectively improve blood circulation, promote metabolism, enhance immunity also applies compression, prevents edema.

Standard

REF-162 Knitted Thigh Support

Supports upper calf. Sustains body's own release of heat effectively improve blood circulation, also applies compression, prevents edema.

REF-168 Hip Abduction Orthosis Brace

Provides support and warmth to the knee joints, uses to heal ligaments injuries.

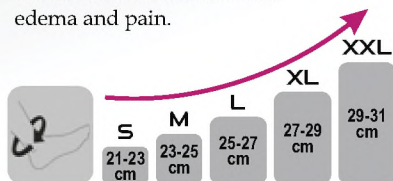

Standard

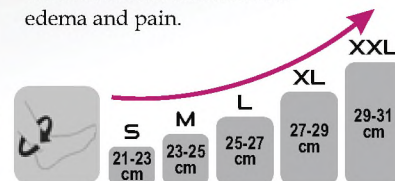

REF-175 Spacer Support With Bandage

Gives support to the ankle joints helping in treatment of light sprains the compression effect reduce edema and pain.

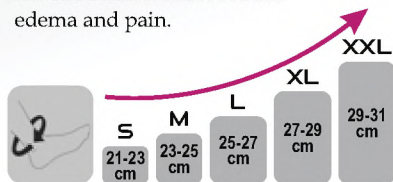

REF-176 Spacer Malleolus Ankle Support With Bandage

Gives support to the ankle joints helping in treatment of light sprains the compression effect reduce edema and pain.

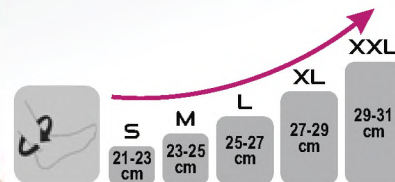

REF-177 Spacer Ankle Support With Ligament

Gives support to the ankle joints helping in treatment of light sprains the compression effect reduce edema and pain.

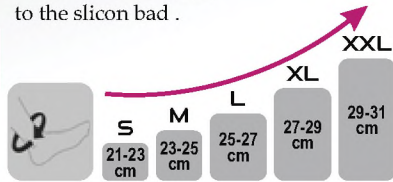

REF-178 Neoprene Ankle Support With Bandage

Gives support to the ankle joints helping in treatment of light sprains

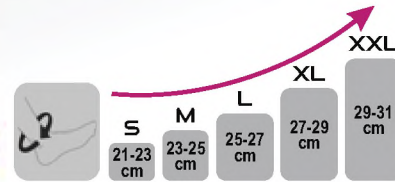

REF-179 Neoprene Ankle Support With Pad Malleolus

Gives support to the ankle joints helping in treatment of light sprains, reduce edema thanks to the silicon bad.

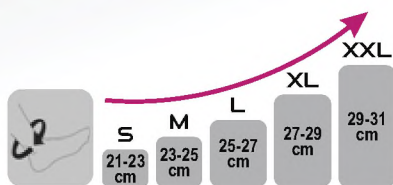

REF-180 Neoprene Ankle Support With Ligament

Gives support to the ankle joints helping in treatment of light sprains

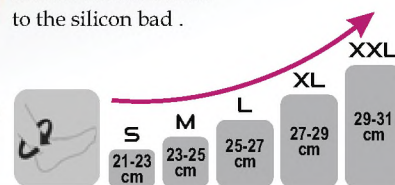

REF-181 Knitted Ankle Support With Bandage

Gives support to the ankle joints helping in treatment of light sprains

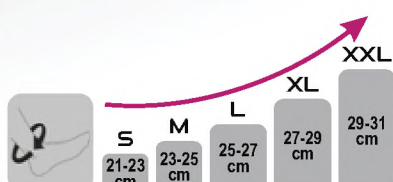

REF-182 Knitted Ankle Support With Pad Malleolus

Gives support to the ankle joints helping in treatment of light sprains, reduce edema thanks to the silicon bad.

REF-183 Knitted Achilles Tendon Ankle Support

Gives support to the ankle joints uses to reduce the tention on Achilles tendon.

REF-184 Ankle Support-Universal Size

Gives support to the ankle joints helping in treatment of light sprains

REF-185 Ankle Support With Malleolus-Universal Size

Gives support to the ankle joints helping in treatment of light sprains, reduce edema thanks to the silicon pad .

Standard

REF-186 Ankle Support With Ligament-Universal Size

Gives support to the ankle joints helping in treatment of light sprains

Standard

REF-187 Ankle Support With Pneumatic Pad

Gives support to the ankle joints helping in treatment of sprains and reduce pain thanks to the air pad .

Standard

REF-188 Ankle Support With Sponge Pad

Gives support to the ankle joints helping in treatment of sprains and reduce pain thanks to the air pad .

REF-200 Silicone Insoles

Calcaneal epin and metatarsus head areas which reduce the pain at foot and calf. Distributes the standing body weight evenly and reduces load and stress on the joints

REF-201 Silicone Insoles With Arch Support

Specially designed to fit figure of the foot and give extra support the arch uses in cases of flat foot to reduce the pain .

REF-202 Silicone Heel Cushion

Specially designed to fit figure of the foot. Softened calcaneal epin area lessens the load on the heels which causes pain. Lessens the pain at foot and calf.

REF-203 Silicone Toe Separator

Conformable for daily use. Prevents deviation of the toe to the lateral in hallux valgus deformity .

REF-204 Silicone Metatarsal Pad with Ring

Made of silicone material. Its position is adjusted by putting the silicone ring onto the 2nd toe.

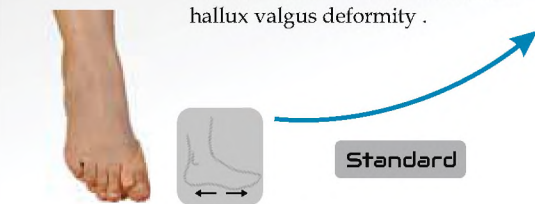

REF-205 Silicone Metatarsal Pad with Toe Separator

Made of silicone material. This is a metatarsal pillow whose position can be adjusted by placing between toes.

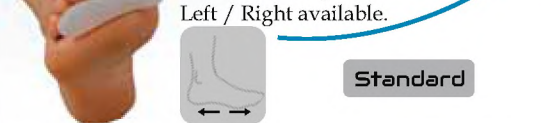

REF-206 Bunion Protector With Toe Separator

Conformable for daily use. Prevents deviation of the toe to the lateral in hallux valgus deformity .

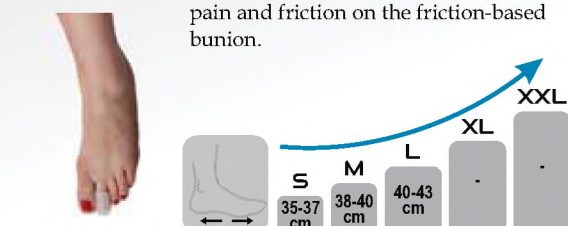

REF-207 Silicone Hammer Toe

Made of silicone material. The hammer is worn on the deformed toe like a cover. It applies pressure on the PIP joint and affects the passive treatment of the deformity. Left / Right available.

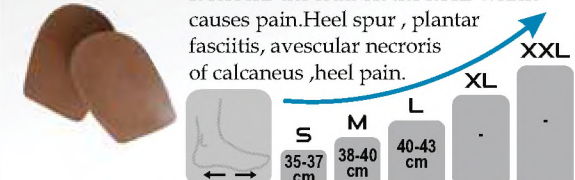

REF-208 Silicone Toe Ring

This is a silicone toe cover. It reduces pain and friction on the friction-based bunion.

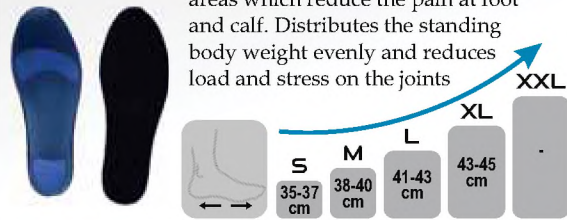

REF-209 Heel Rubber Epine

It is made of polyurethane and the upper surface is covered with the leather. It lessens the load on the heels which causes pain. Heel spur , plantar fasciitis, avascular necrosis of calcaneus ,heel pain.

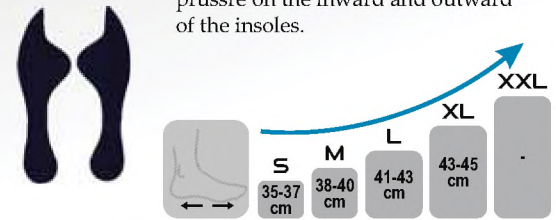

REF-210 Silicone Insoles With Fabric

Calcaneal epin and metatarsus head areas which reduce the pain at foot and calf. Distributes the standing body weight evenly and reduces load and stress on the joints

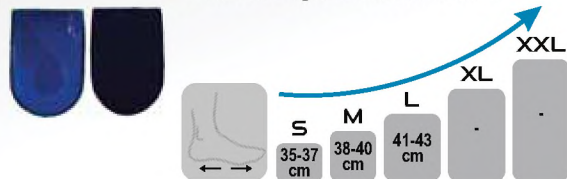

REF-211 Insoles Medial And Lateral Wedge

Provides right divide to the weight prussure on the inward and outward of the insoles.

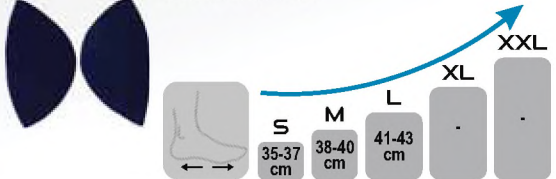

REF-212 Silicone Heel With Fabric

Softened calcaneal epin area lessens the load on the heels which causes pain. Lessens the pain at foot and calf.

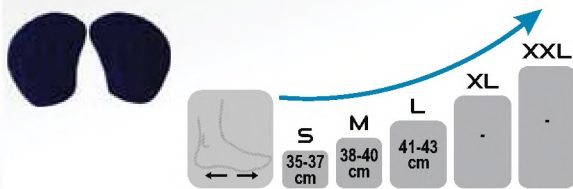

REF-213 Silicone Arch Support With Fabric

Provides excellent support on the longitudinal arch in the flat foot conditions.

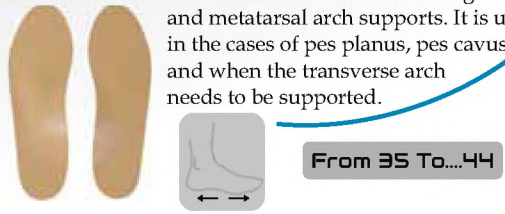

REF-214 Silicone Metatarsal Pad

Reduce pain by relieving pressure on the metatars

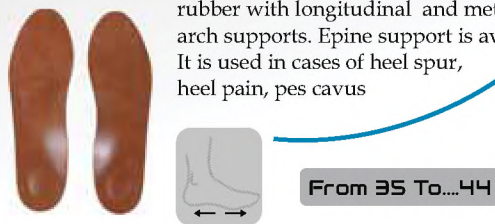

REF-215 Cork Insole

It is manufactured from a mixture of cork with rubber which has longitudinal and metatarsal arch supports. It is used in the cases of pes planus, pes cavus and when the transverse arch needs to be supported.

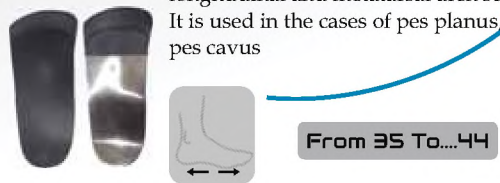

REF-216 Epine Cork Insole

It is made from a mixture of cork with rubber with longitudinal and metatarsal arch supports. Epine support is available. It is used in cases of heel spur, heel pain, pes cavus

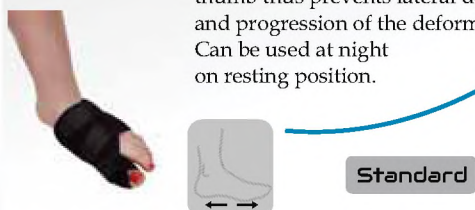

REF-217 Steel Insole

It is made from stout leather with stainless steel metalsupport with longitudinal and metatarsal arch support. It is used in the cases of pes planus, pes cavus

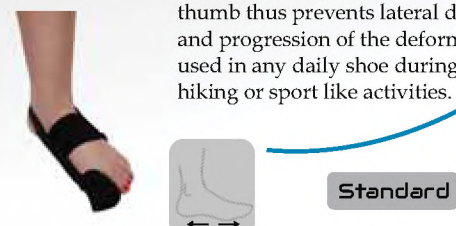

REF-218 Hallux Valgus Support Night

Applies a slight pulling force to the thumb thus prevents lateral deviation and progression of the deformity. Can be used at night on resting position.

REF-219 Hallux Valgus Support

Applies a slight pulling force to the thumb thus prevents lateral deviation and progression of the deformity. Can be used in any daily shoe during hiking or sport like activities.
